EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Cancel claims 27-32.

Add the following new claims:

Claim 33: A method for treating depression in a warm-blooded animal comprising administering to said animal in need of treatment a therapeutically effective amount of a compound according to claim 1.

Claim 34: A method for treating an anxiety disorder in a warm-blooded animal comprising administering to said animal in need of treatment a therapeutically effective amount of a compound according to claim 1.

Claim 35: A method for treating irritable bowel syndrome in a warm-blooded animal comprising administering to said animal in need of treatment a therapeutically effective amount of a compound according to claim 1.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Karl Hermanns on 12-8-05.

Allowable Subject Matter

Applicant's amendment and the terminal disclaimer of 9-21-05 have overcome the previous rejections of 103 and Obviousness-type double patenting. Thus, said rejections are withdrawn herein.

Claims 2-13, and 27-32 are cancelled.

Claims 1, 14-26 and 33-35 are pending and allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The invention is drawn to compounds of substituted *pyrazolo[1,5-a]pyrimidine* of formula I wherein R¹ represents NR⁴R⁵. Since the limitation of NR⁴R⁵ forming a ring has been deleted from the instant claim 1, the teaching of **Inoue et. al.** no longer renders obvious the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

References cited on PTO-892

The references cited on PTO-892 appear to teach relevant compounds. However, their priority dates do not antedate the effective filing date of this application, and thus, they are not competent prior arts.
